

# Turn every agent into an expert.

Elevate agent productivity through conversational workflows that integrate directly into Freshdesk to direct your agents to the next best action in just a few seconds.

## Benefits

**Reduce agent ramp time:** easy-to-follow flows reduce the training time required to get new agents up to speed.

**Improve AHT and FCR:** our interactive flows guide agents to get to resolutions faster, and with fewer escalations.

**Boost call compliance:** review and approve flows ahead of go-live to ensure compliance with internal policies.

**Higher CSAT:** improved FCR and reduced call handle times leads to a better customer experience.

## Features

**No-code authoring:** build, review, and publish changes to flows in real time, without requiring assistance from IT.

**Advanced reporting:** leverage our advanced reporting to optimize your flows and manage team performance.

**Basic Freshdesk integration:** embed Zingtree workflows in your Freshdesk CRM to provide a single pane of glass for agents to work in.

**DecisionEngine™:** integrate sophisticated logic into flows so agents always have the answer immediately no matter the complexity.

Helping **700+ companies across 54 countries** deliver a world-class customer experience.

Features	Description	
<b>Basic Integration</b>	Embed Zingtree workflows in your Freshdesk CRM to provide a single pane of glass for agents to work in.	
<b>Pause &amp; Resume Feature</b>	Lets you transfer cases/tickets in Freshdesk from one agent to another, and retain context and tree history.	
<b>Custom variables</b>	Pass variables to your tree to store information gathered from your customers such as names and requests.	
<b>Instant Notes</b>	Help your agents in Freshdesk save tons of time by creating a notes summary page that can be copied as an editable internal note with just one click.	
<b>Automated Triggers</b>	Initiate actions like SMS, emails and escalations based on triggers and responses within your conversational workflow in Freshdesk.	
<b>Fully customizable CSS</b>	Customize the look of the decision tree with our built-in themes or add your own CSS.	
<b>DecisionEngine™</b>	Allows you to integrate sophisticated logic into your conversational workflow, so your agents always have the right answer at the right time no matter how complex the workflow is.	
<b>Advanced Reporting</b>	Advanced reporting to optimize your scripts and manage team performance.	
<b>No-code authoring tool</b>	Enables your support team to build, review and publish changes to conversational workflows in real time, without requiring assistance from IT.	
<b>Custom Webhooks</b>	Exchange Zingtree data with other applications outside of the Freshdesk integration.
